Recommendations : 【Recommend point】 This year Upon greet UNMDGs last year we have been promoting the business to concentrate on fund-raising activities as close to the goal, even a little.

We were able to be there to achieve full cooperation of everyone and pray on net-like members in the yen 3,000,000 fundraising goal amount of money listed at the end of last year.

But then I think that it was insufficient for the improvement of cognition to the general public about the issues that are facing all over the world, that there are a variety of opinions and criticism with regard to the hand method of donation You are aware -ply, remorse has also been.

As a result, the third consecutive year the country at the 1-position of the things to raise money amount is Japan from the Society and JCI

Takamatsu Junior Chamber efforts are attracting attention, direct to the achievement of the goal of malaria eradication by being incorporated as a good example I think it's possible contribution Takamatsu Junior Chamber of Commerce to the realization of a bright prosperous society can lead to.

Finally, but not least for the UNSDGs is a new initiative of the next fiscal year is divided into the period with his long-term plan rather than the concept of a single-year system to the target setting Toshimashite my opinion in light of the reflection of my own There is a need to be addressed on,

I think whether that person is not the most likely to activities the committee responsible.
